Philadelphia's Best Treatments to Heal Sun Exposure

By Claudia Langella | August 6, 2019

Hot summer days are best spent in the sun, but once the season ends, your skin is left needing a little extra TLC. When you're done catching rays, brighten and tighten your complexion with these Philly professionals.

The Underground Spa & Wellness

The city's best-kept secret is the spa located in The Logan Hotel. The Underground Spa is a place of total relaxation and the perfect place to cure spots left by days spent out in the sun. To revitalize your skin, try the Vitamin C15 Brightening Facial. Its goal is to reverse sun damage and prevent aging with antioxidants and botanical extracts. It firms, brightens, and reduces wrinkles as if they never even happened. *\$155, One Logan Square, 215.405.2815, theloganhotel.com*
