[The Spa at The Logan Hotel](#), rather #1 among the spa and wellness centers in Philadelphia, Pennsylvania, recently announced a new selection of full-service spa treatments to promote deep relaxation and healing that include pure oils and restorative balms infused with CBD (cannabidiol), a naturally occurring chemical compound that has recently grown in popularity in spa treatments and beauty products.

“There is a profound, holistic state of relaxation that begins almost immediately with these CBD oil-infused experiences,” says Spa Manager Lanez Perry. “We’re very excited to offer our guests the proven benefits of CBD oil, including relief for anxiety, continuous aches or sore points throughout the body.”

The Logan Spa Nail Salon is offering a CBD Mani & Pedi.

The Spa's latest menu offerings include:

- The CBD Quartet - Experience the botanical power of pure CBD-infused oils and healing balms with this 4-in-1 treatment designed to relieve stress and melt away muscular aches from scalp to sole. Start with a decadent massage with a moisturizing wrap to give the skin a healthy glow, then relax with a scalp massage and reflexology to bring the body back into balance.
- CBD Mani & Pedi - Fingers and toes will look and feel their best with a manicure and pedicure combining a CBD exfoliating scrub, massage oil and a bath bomb.
- A variety of CBD skincare products will also be available for purchase at The Spa
